Continuation of Substance of Interview including description of the general nature of what was discussed:

Mr. Thomann alerted the Examiner to a typographical error in the rejection under 35 USC 112, first paragraph, on pages 4 and 5 of the Office action of 11/30/04. SEQ ID NO:24 should have been SEQ ID NO:26, which is a human sequence, while SEQ ID NO:24 is a mouse/human consensus sequence.

Mr. Thomann also alerted the Examiner that claims 146-151 were not accounted for in the previous Office action. Claims 146-151, in addition to previously indicated claims 99-100, 105, 106, 108, 110-112, 126-128 and 138-141, are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
